

YOUR ONLINE FINANCIAL RESOURCE CENTER

The Center™ is an online learning library that enables employee access to our most popular financial tutorials. With Center, it is easy for employees to get specific answers to their financial questions. For example, they can look up the basics of car buying while they are at a car dealership, or our home mortgage calculators when they are shopping for a new house. They can learn about stocks and bonds while they are staying in at night.

150+ Tutorials

A robust education library that covers the basics of financial education such as personal finance, savings and investing and retirement.

Scalable & Affordable

All of Financial Fitness Group's products can be configured to match your organization's look and feel. We make promotion easy with automated marketing engine.

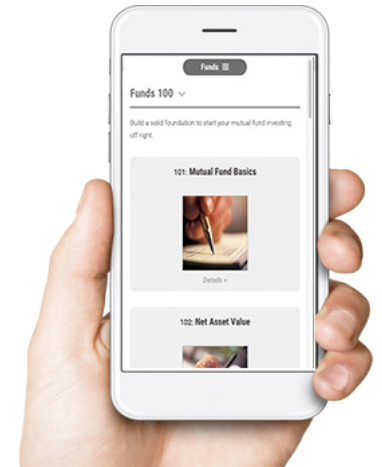

24/7 Access

Employees can access financial education any time of day or night and from any device.

INDEPENDENT UNBIASED FINANCIAL EDUCATION

When choosing a financial education program, it is important that you consider the quality of the content. We can confidently say that we offer the best employee financial education on the market. Our team of experts have been providing financial education for decades. However, what makes our education solution stand out from the competition is that it is independent and unbiased. We don't sell financial products / advice.

We are dedicated to empowering your employees with **current** and **up-to-date** knowledge. The **Center™** provides education in an **easy-to-consume** format.

Financial Fitness Group has provided interactive financial education, technology, content and tools to **1000s of companies** and more than **4,000,000 users** nationwide! As a leader in the financial wellness space, we have licensed our technology to companies such as:

Cornell University

Employee Benefits Beginner: **Introduction to Employee Benefits Programs**

Introduction to Employee Benefits Programs

(1 of 8)

In the United States, employee benefits programs promote economic security for employees. They provide health, retirement, and other benefits to help raise living standards and also to help companies stay competitive in the marketplace. In some form or another, employee benefits go all the way back to the early colonial days. Nowadays, some benefits are required by law, but many are provided voluntarily by businesses.
